Problem The GSFC Hardware-Software Map (920-tdg-002) is very incomplete and very out-of-date.			
Proposed Solution Update the GSFC Hardware-Software Map (920-tdg-002) to be the attached document. When this is approved, the maps for the other sites will be revised accordingly. The following changes have been made: 1. Revised the hardware to match the latest hardware diagram. 2. Added custom code for each platform, revised the COTS products for each platform, and broke the software out by category. 3. Combined the Subsystem, HWCI, Platform, and Model columns 4. Added functions and roles assigned to each platform 5. Incorporated many updates following extensive review by all departments.
